William L. Gray Arrested for **Embezzlement and Forgery**

WAS / A GROCERY CLERK

Wanted at Rushville Illinois for Old Crime.

Wm. L. Gray, who was arrested here last week on the charge of embessling money while in the employ of Stewart, the grocer on East Douglas, had another charge put against him yesterday by telegram from Rushville, Ill., and he is wanted there for forgery. Gray has been in Wichita for nearly a year and a half, and was formerly employed by O. H. Tewmey. Some months ago he was employed by Mr. Stewart, whose store is on East Douglas avenue beyond Mosley avenue, as a clerk and delivery wagon man. Mr. Stewart in a short time began to notice a queer shortage in cash collections and suspicioned Gray. After some investigation Mr. Stewart found that Gray was embezzling and the young man did not deny it when charged.

The officers learned in some way that Gray was wanted in Illinois and in response to inquiries a telegram came yesterday to the chief of police to arrest Gray at once for forgery. Nothing is known as to the Illinois crime. In all probability it is a big amount, or he would not be followed to Kansas with requisition papers.

Gray is about 25 years old and single In his talk to acquaintances since he came here he admisted that he had to leave Illinois on account of some trouble but he claimed to have killed a man. The forgery probably explains the real trouble which he often mentioned,

To Cleanse the System. Effectually yet gently, when costive or billious, or when the blood is impure or sluggish, to permapently overcome habitual constipution, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headache, colds or fevers, use Syrup of Figs, manufactured by the California Fig

FOR MURDERING HIS WIFE Cattleman Tolls of a Strange Cowley

County Case.

Mr. H. E. Parker, a cattleman who lives in Comanche county, was in Wichita yesterday on his way home from a trip through southeastern Kansas, Mr. Parker was at Atlanta, a small town in Cowley county, when Mrs. Chas. Fisher was found dead in her house with a bullet in her head. There was great excitement about the matter, which was only creased when suspicion attached Mrs. Fisher' husband. A big crowd went to the coroner's inquest and people seemed to be satisfied when Fisher was ordered under arrest. Fisher tells this story, about which is a clipping from the Winfield Courier, Mr. Parker had saved:

Fisher's story is inconsistent and weak in several places and there is no doubt in the minds of the officers as to his guilt. His story as told on the witness stand was that he and his wife were awake about 4 o'clock yesterday morning when he got up and went out doors. When he came in they talked a few min-Papa, there is a man out in the yard watching me.' She was standing in the door and he started toward her, but turned to go back after his gun, when the man, who was standing about thirty feet away, fired, the bullet striking Mrs. Fisher squarely between the eyes, She fell backwards and he made a dash into the yard, but the man had disappeared. He then returned to the house and listened to hear if his wife's heart was beating. She was dead and he made no further examination of her wounds. One of the children 8 years old then woke and commenced to cry and it took him about half an hour to quiet her. He then went to the home of a neighbor, a half mile away, and gave the alarm.

"Under the cross questioning by County Attorney Hargis he got the stery mixed in several places. Instead of half an hour it was in fact more than an hour after the murder until he went to call a showed unmistakable signs of powder burn which could not have been made by a gun thirty feet away. Blood was found on the bed clothes and his pistol. although full of cartridges, had evidently been recently fired. They have three children, but the oldest, 12 years, was not at home the night of the murder. The children are now with her parents, who live near the scene of the murder, about four miles northwest of Atlanta.

"Figher is comparatively a stranger in that community and but little is known about him. He formerly lived near White Rock, O. T., and came there from westery Kansas. He had a crop of wheat White Rock which he had just finished harvesting and threshing. He returned from White Rock Saturday of last week and spent most of Sunday and all of Monday loafing around Atlanta. He moved to the farm he now occupies last March, having lost his claim near White Rock in a contest.

Charlie Wilkin's Relatives Resist a Sympathetic Move

MADE BY MRS. H. CASON

In Which She Secures Wilkin's Signature to Petition.

The hope of an immediate pardon for Ed Price, the fellow who attempted to hold up Charlie Wilkins two years ago, and was shot in the neck and afterwards given ten years in the penitentiary, seems to have gone glimmering since the arrival of Mr. Wilkins' sister, Mrs. Stewart, a few days ago. Mrs. Stewart Is spending the summer here while her husband is in New Mexico engaged in prospecting on a large scale. Mrs. Stewart realizes keenly the bold attempt to rob and perhaps murder her brother, Charlie Wilkins, and she puts her foot down on any attempt to secure a pardon for Ed Price. So does Mr. Wilkins' wife, and they have written Governor Stanley and other officials, asking them not to grant the pardon. This was done after Charlie Wilkins had himself signed a petition or a paper relating to a pardon for Price, which paper is said to have been presented to him by Price's sister, Mrs Harry Cason, a few days ago, while Mr. Wilking was so ill that he hardly realized what he was doing.

Mrs, Wilkins and Mrs, Stewart were questioned last evening on the subject of a pardon for Price and about Mr. Wilkins' desires. Mrs. Wilkins said:

"It is true my husband signed a pape presented by Mrs. Harry Cason, who is rying to get a pardon for her brother but he did so through a sympathy that was induced by Mrs. Cason's tears and pleadings while he was in no condition to undergo any excitement. He hardly realized what he was signing and did no care. Mrs. Cason took advantage of the situation. We immediately called on Mr. Amidon and Mr. Dale to induce them to refuse to sign the petition, and they promised us they would not do so until they could have a personal interview with my husband. I am guite sure they will not sign the petition. I wish you would just publish the circumstances under which my husband signed the pe-We do not want Ed Price pardoned. He doesn't deserve it."

Mrs. Stewart was a little more spirited in her talk. "It is rather an audacious scheme on the part of Mrs. Cason," said Mrs. Stewart, "to call on my brother in his present condition and try to work on his sympathies by crying and pleading. Ed Price and his gang would have killed Charlie in that held-up had he not been too quick for them. Such men are dangerous. I do not propose to have Charlie's signature count for anything in the proposed scheme to secure a pardon. Mr. Amidon, I understand, has said that Judge Dale would not sign the

It looks as if the relatives of Wilking will frustrate all attempts on the part of Price's relatives to secure a pardon for Price. Governor Stanley has made a ruling that he will not grant pardons without a petition signed by the district judge. presecuting attorney and presesecured the signature of Charlie Wilkins. and Sam Amidon that they would act in accordance with Wilkins' wishes in the given his former enemy. Probably he should wish him to ke unpunished for a crime against him and against society. Mr. Wilkins was thought to have been improving nicely until the extremely him much trouble and he is losing ground again.

GLORIOUS NEWS

Comes from Dr. D. B. Carglie of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved-that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, sait rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by G. Gehring, druggist. Guaranteed.

GOVERNMENT CROP REPORT Corn's General-Average 89,9; Kansa

Meads the World with 106.11 Washington, Aug. 10.-The August report of the statistician of the departmen of agriculture shows the following averages of condition on August 1: Corn, 89.9 spring wheat, 83.6; oats, 90.8; barley, 93.6 spring rye, 89; buckwheat, 93.2; potatoes

93; timothy hay, 86.7. The average condition of corn improved 3.4 points during July, and on August 1 is was 2.9 points higher than at the corresponding date last year, 5.7 points hikher than on August 1, 1895, and 3.2 points above the mean of the August averages for the last ten years. The averages i the principal states are as follows: Ohio. 90; Indiana, 94; Illinois, 91.1; Iowa, 82; Missouri, 88; Kansas, 106, and Nebras ka. 99.

The average condition of spring wheat declined \$1 points during July, and on August 1 it was 12.9 points lower than At the corresponding date last year, 21 points lower than on August 1, 1997, and 3 points below the mean of the August averages for the last ten years. The condition in the principal states is as follows Minnesota, 90; Iowa, 89; Nebraska, 86; South Dakota, 94; North Dakota, 85; Washington, 85, and Oregon, 81.

The averake condition of oats improved .8 point during July, and on August 1 it was 6.6 points higher than at the corres ponding date last year, 4.8 points higher than on August 1, 1897, and 8.2 points above the mean of the August averages for the last ten years. The averages in the principal states are as follows: New York, 90; Pennsylvania, 89; Ohio and Missouri, 93; Michigan, 100; Indiana and Wisconsin, 96; Illinois, 102; Minnesota, 95; Iowa, 94; Kansas, 85, and Nebraska, 92. The proportion of the oat crop of last year still in the hands of farmers is estimated at 6.9 per cent as compared with 6.4 per cent of the crop of 1897 in farmers' hands one year ago, and 19.1 per cent of the crop of 1996 in farmers' hands two

The average condition of barley improved 1.6 points during July, and on August I was 14.3 points higher than at the corresponding date last year, 6.1 points higher than on August 1, 1897, and 8.6 points above the mean of the August averages for the last ten years. The condition in the principal states is as follows; New York and Minnesota, 90; Wisconsin, 96; Iowa and North Dakota, 94; South

Dakota, 89, and California, 97. The average condition of spring wheat stellined .7 point during July and on August 1 was 4.7 points lower than at the corresponding date last year, and .5 point lower than on August 1, 1897, but still 1.5 above the mean of the August averages for the last ten years. In Wisconsin which state produced more than one-half of the entire spring rye crop, the condition on August 1 was 9%.

Preliminary returns indicate an in crease of .7 point in the acreage of buckwheat as compared with last year. There is an apparent increase of 5 per cent in New York and of 2 per cent in Pennsylvania. The average condition of buckwheat is 6 points higher than on August 1, 1897, and 22 points above the mean of the August averages for the last ten years.

The average condition of potatoes declined .8 point during July, but is still \$1 points higher than on August 1, 1898; 15.1 points higher than at the corresponding date in 1897, and 6.9 points above the mean of the August averages for the last ten years.

Of the thirteen principal sweet potato states, eight report a decline during July, and four an improvement, while in one-North Carolina-the condition remains about the same.

Preliminary returns indicate a reduction of 2.4 per cent in the hay acreage Of the states mowing one million acres or upward last year, only Missouri, Kansas, Nebraska, South Dakota and Callfornia show an increased acreage. The condition of timothy hay is 126 points below that of last year.

The average condition of tobs declined il points in Kentucky, 6 fin Tennessee and Missouri. 3 in Virginia and Pennsylvania. 2 in Massachusetts, 1 in Ohlo and Wisconsin, and 8 in Indiana. On the other hand, it has improved points in North Carolina and Maryland, poins in New York, and has about held its own in Connecticut.

There are but few states from which the reports as to the apple crop are not even more unfavorable than they were There has been a marked improvem

in the condition of pastures throughou the New England states and also in New York and Pennsylvania, with some improvement also in Ohio, Kansas, Michigan and Texas. On the other hand, there has been a falling off in condition in Kentucky, Indiana, Illinois, Iowa, Missouri and throughout the northwest

SOME SPONGE ON THE DOCTOR.

Doctors nowadays give away medicine much more generally than in former years, and the manufacturing chemists who supply compressed tablets report of late numerous orders and applications from physicians for a tablet that shall be "equivalent to a Ripans Tabule." There is really little reason why a physician should buy an imitation when the genuine Ripans Tabules can be had on just about as good terms, and there is nothing about them to enable a patient to recognize them. The Ripans Tabules look just like any other tablet of the same size and color, and the genuine are only to be recognized with certainty by the universally good results that follow their use. The Ripans Chemical Co. supply their product to the profession on specially favorable terms, because it is for their advantage that every doctor shall become so familiar with the merits of Ripans Tabules that he will be quite as willing a patient shall supply his needs at the drug store as to sponge on his physician, and thus get them for nothing.
